Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 15, 2006 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9, 2, 3 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Heurteboust (EP Patent # 614711 A1). Heurteboust discloses a press machine (10) having a cushion pin (15) interposed between a work (1) and a die cushion (11), comprising a pillar member (12b) and an elastic material (spring 16) that is arranged coaxially with respect to the pillar member (12b) and produces a pushing force in an axial direction of the pillar member (12b).

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter.

1. It is the opinion of the examiner that the art of record (considered as a whole) neither anticipates nor renders obvious a cushion pin having a pillar member comprising of "a bolt

member attached to a first member; a sliding member disposed between a head of the bolt member and an end face of the first member; and a second member attached to an opposite end of the sliding member relative to the first member, wherein the first member, the bolt member, the sliding member and the second member are coaxially aligned, and wherein the elastic member is disposed around said bolt member and in said sliding member" in combination with the rest of the claimed limitations set forth in claims 10, 16 and 19. Therefore, it is concluded that claims 10 and 16-21 of the present invention are allowable subject matter over the prior art. Further explanation can be found in the Office Action dated August 15, 2006.

4. Claims 10-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Debra Wolfe whose telephone number is (571) 272-1904. The examiner can normally be reached Monday - Thursday 7am - 4:30pm with alternating Friday 7am - 3:30pm.
